ABSTRACT

This CD-ROM presents six videos that feature veteran middle and high school teachers in action in their classrooms. Each video offers links to supplemental education resources, including innovative lesson plans. The six videos are: "Monsters and Myths" (a humanities unit for middle school students); "The Bleeding Edge" (a thematic interdisciplinary art project that uses the theme of blood and circulation); "Fishbowl" (using action research to achieve standards); "Romeo and Juliet" (using emotions and feelings in learning English as a Second Language); "Opening Doors to Technology"; and "How Are You Smart?" (SM)
